

Allergic

Leslie West

Some women make me weak in the knees
When I'm near you I start to sneeze
Went to the Doctor told him what I got
Threw up his hands and he gave me a shot I'm allergic
I'm allergic to your touch
I'm allergic baby
Don't get me wrong I like you too much You're easy on the eyes it's plain to see
Only from a distance don't get near me
When you first come up to me I fell so alive
Next thing I know I'm breaking out in hives I'm allergic
I'm allergic to your touch
I'm allergic baby
Don't get me wrong woman I like you too much I've tried everything from thyme to jungle root
But I break out when I get next to you It's like you press the button on my remote
I get a little scratchy in my throat
My eyes start to water and I feel like cryin
It sounds unlikely but I ain't lyin I'm allergic
I'm allergic to your touch (to your touch)
I'm allergic baby
Don't get me wrong woman I like you too much I'm allergic, allergic baby
I'm allergic to your touch
I'm allergic baby I'm allergic
Don't get me wrong woman I like you too much I'm allergic
I'm allergic baby
