

# Hey Brittany! (Demo)

## Forever the Sickest Kids

Hey Brittany, why are you messing with me?  
Is your boy in your mind?  
Is your boy in the car  
Or are you alone? So why does everything I say  
Just make you upset  
And I'm not here to bring you down  
Lift you up, lift you up So yeah, yeah, yeah  
Go ahead and lower it down, lower it down  
Just a little bit, just a little bit  
Lower it down So where do we go  
(Where do we go?)  
When you just have to fight to be alone?  
(You cannot know, you will not know) So where do we go?  
(Where do we go?)  
When you just have to fight to be alone?  
(You cannot know, you will not know) Hey Brittany, where is your engagement ring?  
Did it mean anything?  
Does the boy with the ring know  
You bounce, bounce, bounce around? So how am I supposed to act  
When you're around him?  
When everything he says brings you down  
Brings you down, brings you down So yeah, yeah, yeah  
Go ahead and lower it down, lower it down  
Just a little bit, just a little bit  
Lower it down So where do we go  
(Where do we go?)  
When you just have to fight to be alone?  
(You cannot know, you will not know) So where do we go  
(Where do we go?)  
When you just have to fight to be alone?  
(You cannot know, you will not know) So where do we go  
When everybody starts to bounce, bounce, bounce around?  
Where do we go  
When everybody starts to bounce, bounce, bounce around? So, yeah, yeah, yeah  
Go ahead and lower it down, lower it down  
Just a little bit, just a little bit So where do we go  
(Where do we go?)  
When you just have to fight to be alone?  
(You cannot know, you will not know) So where do we go

(Where do we go?)  
When you just have to fight to be alone?
