

Days of My Youth

Squad Five-O

In the days of my youth, I will remember my God. Enjoy your life while you are still young. But remember God will judge you for what you have done. Not long ago you had a fire that burned so bright. But now it seems it's all but gone out inside. You've lost your vigor, you lost your will to fight. You had a reason to start this war. Now there's a problem. You forgot what you're fighting for. You're giving up. You've lost direction. With no direction, you're just another old man. I'll never be an old man.
