Big Bang

Stefan Blaylock

she was a big bang in my heart
creating worlds, new ways for me
she was a big bang a new start
been trying to find a way in, oh shes got the key
she was a big bang all so bright
enlightened maybe frightened me
oh a big bang from nowhere
i now share it still flares it still flares
from me back to you(big bang)
(big bang)if i could, i wouldnt change a thing
why would i want to change a thing
if i could, i wouldnt change a thing
oh why would i want to change a thing
if i could, i wouldnt change a thing
why would i want to change a thing
if i could, i wouldnt change a thing
why would i want to change a thing
if i could, i wouldnt change a thing
why would i want to change a thing
if i could, i wouldnt change a thing
oh why would i want to change a thing
if i could, i wouldnt change a thing
why would i want to change a thing
why would i want to change a thing
when im in love with you girlshe was a big bang
she was a big bang
in my heart
she was a big bang
she was a big bang
in my heart
(big bang)
she was a big bang
she was a big bang
in my heart
she was a big bang
she was a big bang
in my heart
(big bang)she was a big bang in my heart
creating worlds, new ways for me

she was a big bang a new start
been trying to find a way in, no shes got the key
she was a big bang all so bright
enlightened maybe frightened me
oh a big bang from nowhere
i now share
it flares from me back to youshe was a big bang in my heart
creating worlds, new ways for me
(big bang)
she was a big bang a new start
been trying to find a way in, oh shes got the key
(big bang)
she was a big bang all so bright
enlightened maybe frightened me
(big bang)
oh a big bang from nowhere
i now share it still flares it still flares
i now share it still flares it still flares
from me back to you
