City Noise

Scarling.

Another crowded dance floor
Another empty glass
Another failed hello
It's your alibi
Another splendid lie
It's the bruises that you can't showIt's another lonely sunset
Another starless sky
The nervousness inside
It's the final kiss from a lover's fist
It's the reason why you can't cryIt's a violent reaction
The mixtape in your heart
The answer you should know
How we complicate, a simple mistake
It's the face you make when I goAnd we tried to change
The city noise made us strange
So we plugged our ears and learned to fight
We set the stage but we could not engage so we cut all ties by candlelightAnother deep depression
The calm before the storm
The shaking in your head
How you sacrificed - how you paid the price
All the words you wish you had saidIt's the rawest of emotions
Drinking to forget - names written in the snow
It's the anxious feel - purging your last meal
It's the secret that you can't knowAnd we tried to change
The city noise made us strange
So we plugged our ears and learned to fight
We set the stage but we could not engage so we cut all ties by candlelight
