

# Who's That Man

## Xscape

Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? He's got a different little style than other men today  
He does his thing with a swing  
And everything you see him do is in a different way  
You never ever seen before He's not your ordinary slick uptown type of brother  
Don't think twice 'cause you'll never find another  
There goes the man behind the mask  
You've never ever seen him before Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? He's got the flava to do his his thang  
He's got something everybody wish they had  
And something tells me you don't wanna make him mad  
No you don't, no you don't, no you don't He's not your ordinary slick uptown type of brother  
Don't think twice 'cause you'll never find another  
There goes the man behind the mask  
You've never ever seen him before Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? He's got a different little style than other men today  
He does his thing with a swing  
And everything you see him do is in a different way  
You never ever seen before He's not your ordinary slick uptown type of brother  
Don't think twice 'cause you'll never find another  
There goes the man behind the mask  
You've never ever seen him before Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?

Don't you wanna know?  
Know, who's that man? Know, don't you wanna know?  
Don't you wanna know?  
Know, who's that man?
