

Bolt

Hedtrip

Well, she talks like a bullet
And she looks like a goddess
Says she's a traveler
And she knows where she's going
Dresses like a model
Talks like a liar
She sounds like a bimbo
But she thinks like a scholar
She's got me, she's lost me
She's got me on my knees in awe
She took me, she shook me
And now I want her all the more
Well, I'm talking straight to her
And I know she's not listening
Why the hell do I find her
So damn impressive
She has a bad temper
She likes to have control
The fact I don't understand her
Fascinates me all the more
She's got me, she's lost me
She's got me on my knees in awe
She took me, she shook me
And now I want her all the more
She's got me, she's lost me
She's got me on my knees in awe
She took me, she shook me
And now I want her all the more
