

# Secret Garden

## Esmaye

There's a garden in my head  
Filled with every word you said  
Still the tempting greenness  
Feeding me, needing me

There's a wish inside our well  
Can't remember how we fell  
Now the garden seeds are  
Feeding me, needing me to grow (... to grow)

How do you know,  
Covered in snow,  
How do you feel the sun is burning ?  
... (how do you feel?)

Now the red has turned to green  
Mystic clouds erase our dream  
See this hallow, feel this  
Eating me, needing me

Empty spaces fill my head  
Now the thunder has a friend  
See the lightning sky is feeding me,  
Needing me to grow... (it's needing me to grow...)

How do you know,  
Covered in snow,  
How do you feel the sun is burning?

How do you know,  
Covered in snow,  
How do you feel?

How do you know,  
Covered in snow,  
How do you feel the sun is burning?

How do you know,  
Covered in snow,

How do you feel?

... how do you feel?

... how do you feel?

There's a garden in my head  
Filled with every word you said  
Still the tempting greenness  
Feeding me, needing me

There's a wish inside our well  
Can't remember how we fell  
Now the garden seeds are  
Eating me, needing me to grow
