

# We're All Alcohol

## Kingsize

They say theres a house on the hill / Its what we hear out in the street  
Well, we are the beaten and bloody under your feet /  
We are all beautiful / Were all alcohol / And we are all beautiful Mary wants to kick and scream / Them cops  
dropped dime on her dreams  
Dont look in the window / Hes overdosing /  
I want to buy you a wedding ring / I want to give you the world on a string  
But dont look in the window / Ive stolen the money /  
We are all beautiful / Were all alcohol / And we are all beautiful I just want to do whats right / But these fuckers  
keep pickin a fight  
Dont look in the window / I am a liar / But I got this microphone  
n its all I got to call my home / And Im takin us outta this,  
outta this gutter  
We are all beautiful / Were all alcohol / And we are all beautiful Remember this  
Remember this  
Remember this
