

Swimming

Tancred

I've got an end-game job if I need it
We've got your mother's car if we feel like driving faster with you
When you sing to me, I fall asleep
When I go swimming, I go real deep
If you have somewhere to be, I'll take you there
Take you home with me
I've got an end-game job if I need it
We've got your mother's car if we feel like driving faster with you
When I pick flowers, I lie in the grass
When I ask questions, you shatter like glass, like glass, like glass
If you have somewhere to be, I'll send you there, away from me
I've got an end-game job if I need it
We've got your mother's car if we feel like driving faster with you
When I go swimming, I go real deep
Real deep
Real deep
I've got an end-game job if I need it
We've got your mother's car if we feel like driving faster with you
