

# Watch Me Burn

## AamityMae

The poison goes through my head  
Trying to strike me down till I'm dead  
Am I better off if I stop, boy, they got me hot  
Love me, hate me, make sure you be  
The one to catch me down & out losing  
You want a piece of it? But I never quit  
Talk it up, Run that mouth while I'm working it, earning it  
Start me up, spark me up, let's go  
So I set myself on fire  
Oh now it's my turn  
So I set myself on fire  
Come & watch me burn (x4)  
The talk is cheap in this town  
Cheap is what's going round  
You think you got me unglued  
I've got some news for you  
Stick & stones become an explosion  
Break my bones but no I ain't broken  
You want a piece of it? But I never quit  
Talk that smack, strike that match  
While I'm using you doing it!  
Start me up, spark me up, let's go  
So I set myself on fire  
Oh now it's my turn  
So I set myself on fire  
Come & watch me burn (x5)  
No matter how cold they make me,  
No matter how they try to freeze me out  
Imma be right here blazing so amazing  
See my flames for miles  
So I set myself on fire  
Oh now it's my turn  
So I set myself on fire  
Come & watch me burn (x2)  
So I set myself on fire  
Come & watch me burn  
Oh now it's my turn  
Come & watch me burn  
So I set myself on fire

Come & watch me burn (x5)
