

Weapons of Math Destruction

The Copyrights

We're gonna break this fucking scene in half
show no remorse for the morse code rhythms you have
speak more to our hearts and less to our heads
we've got the weapons so consider yourselves dead
Try to show us how smart you are we know how smart you are
there's no need to explain the joke
we get it we get it
we're just not laughing

We're gonna break this fucking scene in half
show no remorse for the morse code rhythms you have
play more to the floor and less to the seats
listen less to your mouth and more to your feet
Try to show us how smart you are we know how smart you are
there's no need to explain the joke
we get it we get it
we're just not laughing
you've got a mind like a steel trapeze
and your partners are losing their grip
now we're gonna add it up...

3 drums
16 strings
4 mouths
4 brains
3 mics
12 speakers
4 tempers
and 4 middle fingers
