## Kasabian

Too much information, well I said, you're good for nothing  
Come on to the back, I said, your needless good for something  
Guess I'd better sell you now, guess I'll bet I'll be around  
Singing for your questions but you've stolen all of my answers  
Too much entertainment drove my knights out of their corner  
Tell me that you've seen a ghost, I'll tell you what to fear the most  
Stop, I said, it's happening again  
We're all wasting away  
We're all wasting away  
Too much information, well I said, you're good for nothing  
Stitch your part of counterfeit, I sent you out for hunting  
Taking at the roads where you're taken for the simple codes

Swimming with the fishes while the serpent waves his tongue  
With a belly full of splinters, now you see that I'm the one  
Tell me that you've seen a ghost, I'll tell you what to fear the most  
Stop, I said, it's happening again  
We're all wasting away  
We're all wasting away  
Stop, I said, it's happening again  
We're all wasting away  
We're all wasting away  
Stop, I said, it's happening again  
We're all wasting away  
We're all wasting away
