

# Your Past

## Black Fortress of Opium

So deep in my heart  
I know, you found these things

I won't  
Compete with your past now baby  
I won't  
Even, try

---

So I pass the time adding rhyme to my hymn  
I wish I could create a language just for you

But nothing is strong enough  
No nothing worthy of your love

---

But the dream, so deep in my heart  
I know, you've felt these things  
So I create my language devoid of the need to see  
I will make us a language devoid of the need to feel

---

Just perceive  
You urge me to believe, and I do  
But I have so damaged, so have you  
Haven't you

---

I won't, compete with your past now baby  
I won't even try  
To destroy your precious high grounds

But if you want me in the now here I am  
Yeee if you want me in the now, here I am

Here I am

Here I am  
Here I am  
Here I am  
Here I am

I won't, compete with your past now baby
