

# Holding On

## Jeremih

How can one fall all the time and climb again?  
How does one heart feel so lost to find again?  
How can one road lead the way today  
Before giving it all? I wish I could fly to the top of the mountains  
So that I could see just how far this will go  
Feels like I'm stuck in the battle  
Equipped with no armor but still standing strong 'Cause to be a survivor, y'all gotta know how  
Y'all better know how to keep holding on How does one give all they got, (trust) receive the half?  
How does one live day to day, day, forget the past?  
Am I out here on my own, if so Imma do this all alone, yeah  
I can never live and be afraid, yeah I wish I could fly to the top of the mountains  
So that I could see just how far this will go  
Feels like I'm stuck in the battle  
Equipped with no armor but still standing strong 'Cause to be a survivor, y'all gotta know how  
Y'all better know how to keep holding on Against the wind, I'm not giving in  
I once spoke to a prophet  
He said, don't stop 'til you got it, ooh I'm not fixin to fold, I'm not letting go, no  
They tryna break me down but I'm not fraction, no  
For all we know this rocky road  
Would it just be the transition to unstoppable? Before the world recall those in  
I wish I had win to pretend and then Then maybe I could fly to the top of the mountains  
So that I could see just how far this will go  
Feels like I'm stuck in the battle  
Equipped with no armor but still standing strong 'Cause to be a survivor y'all gotta know how  
Y'all better know how to keep holding on, eh  
Holding on, eh, holding on, eh, holding on Feels like I'm stuck in the battle  
Equipped with no armor but still standing strong  
'Cause to be a survivor y'all gotta know how  
Y'all better know how to keep holding
