

# Mass Hysteria

## Merciless Mutilation

We are the pain  
We are the shame  
We've gone insane  
Inside where no one's around I am to blame, for everything  
I like this game, that you all  
make me play I'm done being there for others  
They have their pain and so do I  
Don't need to feel it all over  
I try to hold on and you bring me down We are estranged  
We are deranged  
I can't explain  
How you all break me apart I am to blame, for everything  
I like this game, that you all  
make me play I'm done being there for others  
They have their pain and so do I  
Don't need to feel it all over  
I try to hold on and you bring me down We wait, we hate  
We try to get away  
Mistake, my pain  
It has been lead astray  
I'm Looking around, I drop to the ground  
Why does this have to end this way Feeling numb, so long  
Oh God it's just everyday  
It's everything Now I pray for all of them to go away! I'm done being there for others  
They have their pain and so do I  
Don't need to feel it all over  
I try to hold on and you bring me down
