

# You'll Never Know

## Pyro Fighter

How could I ever stop with a view from the top?  
Here I am, here you're not, now you want what I got.  
Got the world by the hand, make them scream, make them dance.  
I bet you wish you could but you can't. Never gonna know, never gonna know.  
No, you'll never know.  
Never gonna know. Throw my name in your face, one more time just in case.  
I'm too good at this game, I can blow you away.  
Got the world by the hand, make them scream, make them dance.  
I bet you wish you could but you can't. Never gonna know, never gonna know.
