The Radio Still Sucks

Ataris

I'm really fucking sick
Of beck and 311,
And marylin manson,
I wish someone would break his fucking neck.
And what about bush
And lame-ass oasis?
Hey, talk about pretentious,
Why don't they just blow england off the map?

Every now and then
I turn it on again
But it's plain to see that
The radio still sucks.
Every now and then
I turn it on again
But it's plain to see that
The radio still sucks.
