

Bangkok Necktie

Man Man

World, I wanna know
If you want my lover or you're workin through the wolves
World, I wanna know
If you are my lover or you're working through the wolves
World, I wanna know
If you are my lover or you're working through the wolves
World, I wanna know
If you are my lover or you're working through the wolves
World, I wanna know
If you are my lover or you're working through the wolves Lay my brains out on the table do you want me now?
Before my body catches up and kicks me til I'm down
I lay my body on the table do you want me now?
Before my demons come along and pull me underground
I lay penis in your navel do you want me now?
It beats your ear into my chest and hear the hollow sound
I left my heart out on the table do you want it now?
Well there it goes right out the door to terrorize the town Get a rope
Get a rope
Get a rope
Get a room
(x8) Hey, I wanna know
If you want my lover or you're just another wolf
Hey, I wanna know
If you want my lover or you're just another wolf
