

We Don't Get Along

The Go-go's

I'm not very serious You want me to be straight I'm not out of time You think I can't wait But you think I'm too late I'm not feeling desperate Somehow you always take things wrong CHORUS Somehow you always get me wrong Well I guess we just don't get along Somehow you always get me wrong When I stay up all night You always go to sleep When I'm thinkin' you're alright You just wanna fight You say I'm wrong CHORUS I just wanna talk things over And you don't realize You leave me broken Everything is O.K. And then you apologize They just pass you by The things that really matter to me CHORUS
