

# Rock 'n' Roll Business Man

## Rob Tognoni

what'cha gonna do now you're on your own  
it don't take a business degree  
to see how the world's gonna treat you now  
you hot shot society  
well get down to the people, get down to the street  
get down to social security  
no one gonna love you, no one's gonna care  
you ain't got moneyrock 'n roll business man  
get your money while you can (x2)well you sound pretty cool when you're on the phone  
sayin' "I got no time for you"  
one of these days, one of these nights  
you'll get what's comin' to you  
well get down to the people, get down to the street  
of livin' on a dollar when tryin' to eat  
no one gonna love you, no one's gonna care  
you ain't got money
