Why Did You

Kumbia Kings

Why did you break my heart
And say your goodbye
Why did you break my heart
And leave me with tears in my eyes
How could you say you left me
When all your words were true
Let me say you really fooled me
My heart just didn't see it comingI still can see the pictures on the wall
Of you and I when I walk through the hall
How can I forget the happy times
When I thought we were both in love
I still can hear your voice
When you would say to me you would never leave me
How I believed you
My eyes were just too blind to seeOh I surrendered my heart
But you just tore it apart
How could you leave me so lonely, lonely
I gave my heart to you
How could you just leave me cryingWhy did you break my hear
And say your goodbye
Why did you break my heart
And leave me with tears in my eyes
How could you say you left me
When all your words were true
Let me say you really fooled me
My heart just didn't see it comingTell me baby
Why did you have to leave
Just tell me baby
I'm begging you, begging you pleaseHow could you leave
Without a word to say to me baby
And how could you think
That all my life without you here would be the same
When you went away
I can't believe the emptiness just hit me baby
My heart was crying so loud
I just could not believe it
Oh I surrendered my heart
But you just tore it apart
How could you leave me so lonely, lonely

I gave my heart to you
How could you just leave me cryingWhy did you break my heart
And say your goodbye
Why did you break my heart
And leave me with tears in my eyes
How could you say you left me
When all your words were true
Let me say you really fooled me
My heart just didn't see it comingWhy did you break my hear
And say your goodbye
Why did you break my heart
And leave me with tears in my eyes
How could you say you left me
When all your words were true
Let me say you really fooled me
My heart just didn't see it comingOhhh
Ohhh
Whooooo
Ohhh
Hooooooo
