

Lost In the Dark (LIVE)

We Are Monroe

Verse:

lost in the dark
you follow through
and feel the way you never thought you could
the glare in your eyes,
a distant time
remembers things you never thought you'd find inside yourself recall the scene
up to the end
you're only scared you'll never understand
what falls from your mind
a foreign sight

a touch of faith you wish you never had Chorus:

Cause I'm pulling you out
while you're breaking me down
with the strength that you carry out
its now time to begin
and I'm pulling you out
while you're breaking me down
as we move past the life we had
to where we can begin Verse:

and you take the leap
that awful feel
attending wounds that never seem to heal
a broken heart
with a broken mind
to guide you through whatever hopes you've lost
