Feels So Good

Dispatch

I waited so long for the sun to rise
This afternoon I see it in your eyes
The sky is opening, the world is shining
All in your day
It feels so good now, it feels so good now
It feels so good now, it feels so good now
Can't believe it, he said I'm alive
You make my heart feel with light
The sky is opening, the world is shining

All in your day
It feels so good now, it feels so good now
It feels so good now, it feels so good now
The sky is opening, the world is shining
All in your day, all in your day
It feels so good now, it feels so good now
It feels so good now, it feels so good now
