Transcribed by: azzdem & wilderness girl
Yeah
? ? ? ? in the street and shoot your brother down
Looking laid down and be the talk of the town
Nothing ever done before the time
Nothing ever done before the time
Just relax your mind
Just wait, just wait, just wait,
Good things will come your way
Good things will come your way
I tell ya, wasting time, give me time
Time wait for no one
It mean nothing ever done before the time ? ? ?
Nothing ever done before the time
Nothing ever done before the time ? ? ?
Nothing ever done before the time
? ? ? ? ? put down the knife, put down the gun
And me say what dem a go do
Dem want go set it right
Call your mum and then cry
Your ? ? ? in a de bar
You see someone around that's in every hospital because
You run around the town with a man a with a gun
? ? ? ? ? where you put your gun point lad
? ? ? ? and leave it alone
Coming from the wicked one dem call the snow
Now nothing ever done before the time
Do take you to relax your mind
Everything you ? ? ? will come your way
And it will come so easily

Nothing ever done before the time
Nothing ever done before the time
Just relax your mind
Just wait, just wait, just wait
Good things will come your way
Good things will come your way
Waiting time, give me time
Time wait for no one

Waiting time, give me time
Time wait for no one
Time time time longer than ? ? ? oh
Time time time don't take it for a joke, oh no
And if he get so much rope and the boy then might go choke
Ah this a this a true and we no tell no joke
You're thinking about ? ? ? them a can't deny your ways
Get your ? ? ? up upon tell you I go taste
Sit down and take your time and relax your mind
Officer go down and that he shoot you I go fine ? ?
This is the one that they call daddy snow
And then a dance in a ? ? ? ? and let the good time role
Rap
The bad man the mercy never the mind murder massacre
The ? ? ? ? the maniac that pumped up blasted ya
Pumping on those heavy loaded 9's
Then nuts crushed and I'll be tearing out their juice man
So don't try to ? ? crazy kill shoot it down first
People what it's worth
Bringin' da bad boy ? ? ? misery see ? ? ? triggers now face the heat
To help your plea
I'm kicking a real ? ? ? I left it black? ? ? ? ? ? ?
Drama's on, women's gone ? ? ? ? ?
Took your head, bloodshed enough dead from the 9
