Hagseed

Pigface

do you know how i feel when i'm alive?
it's kinda like you giving me sex
and you know no one gives me sex
[we like to bump...hey we like to bump]
[we like to bump...hey we like to bump]
hear the breath of death
and hear the breath of death
called what you are baby
doesn't mean i love ya
it just means it's what we are
remember [we like to bump...hey we like to bump]
something that someone said to you when you lived in your house
and opened the front door
[we like to bump...hey we like to bump]
called slightly before but i love ya
[we like to bump...hey we like to bump]
called me being with ya
it's called me being with you
[we like to bump...hey we like to bump]
and how inept can you be when you're making love
[we like to bump...hey we like to bump]
read the magazines baby
they tell ya what you gotta do and they ya what i gotta do
[we like to bump...hey we like to bump]
you know what i feel about that?
[we like to bump...hey we like to bump]
i feel you're a kinda co-conspirator in this world
[we like to bump...hey we like to bump]
or could it be a rival
arrival
and as i arrive
i feel you getting wet inside you
but i don't know why i find you so appealing
'cause you make me feel like i don't exist
i'm so...small
[mental illness is the road to freedom] x3
[we like to bump...hey we like to bump] x2
[mental illness is the road to freedom]
