

# Hagseed

## Pigface

do you know how i feel when i'm alive?  
it's kinda like you giving me sex  
and you know no one gives me sex  
[we like to bump...hey we like to bump]  
[we like to bump...hey we like to bump]  
hear the breath of death  
and hear the breath of death  
called what you are baby  
doesn't mean i love ya  
it just means it's what we are  
remember [we like to bump...hey we like to bump]  
something that someone said to you when you lived in your house  
and opened the front door  
[we like to bump...hey we like to bump]  
called slightly before but i love ya  
[we like to bump...hey we like to bump]  
called me being with ya  
it's called me being with you  
[we like to bump...hey we like to bump]  
and how inept can you be when you're making love  
[we like to bump...hey we like to bump]  
read the magazines baby  
they tell ya what you gotta do and they ya what i gotta do  
[we like to bump...hey we like to bump]  
you know what i feel about that?  
[we like to bump...hey we like to bump]  
i feel you're a kinda co-conspirator in this world  
[we like to bump...hey we like to bump]  
or could it be a rival  
arrival  
and as i arrive  
i feel you getting wet inside you  
but i don't know why i find you so appealing  
'cause you make me feel like i don't exist  
i'm so...small  
[mental illness is the road to freedom] x3  
[we like to bump...hey we like to bump] x2  
[mental illness is the road to freedom]
