

Just You (LP/Single Version)

Sonny & Cher

With his big brown eyes he came my way
I didn't know then what he had to say
I could tell that he felt bad
By the way he looked that he felt sad, oh yeah Sometimes you hurt me baby, I don't know why
I'll always love you baby till the day I die
But when you look at fellas
Baby I get jealous
I only live my life for you
Anything you say I'll do
I'll live for you, I'll die for you
I'll even climb the mountains high for you Thought right then he'd break my heart
I could feel the teardrops start
Why didn't he know I love him so
I could never let him go, oh no I'd never hurt you baby, tell you why
I'm gonna love you till the day I die
When I look at fellas
Baby don't get jealous
I only live my life for you, anything you say I'll do
I'll live for you, I'll die for you
I'll even climb the mountains high for you
