

Divers Down

Australian Crawl

He was doing fine just right
Allright I know
Built a thriving little business
Fixing all the taps, making all the water flow
But he's going out at night time
By the light of the moon glow
He's been looking in some windows
Peep show, peep show
Send the divers down
Send the divers down
Find a body tonight
Just to make it all right
Send the divers down
One thing leading to another
He seemed as meek as a mouse

Another bloody empty mattress
At the soroity house
Should have done himself a favour
Done a favour I know
He really dug his own grave
But he had something to show
Now all the daily's will crow
He was doing fine just right
Allright I know
Built a thriving reputation
Sicko, Sicko
