

Leave Me Alone

Hebe Tien

English Translations:

I'm still the same as before. I'm just thinner because I've lost a few liters of tears.

To the mirror I promise that I will give this face smiles and laughter again.

No big deal. So what if I loved the wrong person?

The sooner I notice I'm wrong, the sooner I can escape. Just leave me alone. At this time, don't try to comfort me.

Just let me feel the pain until I can't take it, until I think about it, until I almost go crazy.

As long as I don't die, it's fine.

Just leave me alone. You really don't need to come and smile in my memories.

I don't believe that I'll be so stupid as to not forget, to lean on you still and not let go.

Humans are lonely creatures, and we must return what we borrow. I will let you go completely. You're still the same as before. I just dreamed that you changed.

It doesn't matter how much love there is, everyone has their own vices.

What will there be? There's nothing there.

The sooner I see this, the sooner I can see the future. Just leave me alone. At this time, don't try to comfort me.

Just let me feel the pain until I can't take it, until I think about it, until I almost go crazy.

As long as I don't die, it's fine.

Just leave me alone. You really don't need to come and smile in my memories.

I don't believe that I'll be so stupid as to not forget, to lean on you still and not let go.

Humans are lonely creatures, and I will let you go completely.Chinese Lyrics:
