

Beyond the Sun (feat. Lennon Stella)

Nashville Cast

I wonder what it's like to live on cloud nine
Where everything's fine all of the time
I wonder how it feels to be unafraid
Day after day after it rains Someday, somehow
Before too long
I'll say goodbye to my burdens
I'll fly beyond the sun I wonder what it's like in the shade of a tree
Shooting the breeze being carefree
I wonder what I'd choose if given the choice
Between silence and noise
Words or a voice Someday, somehow
Before too long
I'll say goodbye to my burdens
I'll fly beyond the sun Fly, fly beyond the sun
I'll fly beyond the sun Someday, somehow
Before too long
I'll say goodbye to my burdens
I'll fly beyond the sun
