

# It's Only the Comforter

**Fred Hammond**

120 weighted bar, the promise that He gave  
The day He stepped up on the cloud  
Suddenly the wind began to blow  
Where it came from, they did not know  
And those outside who heard, thought it was absurd  
Then Peter said

Don't be dismay, these are the last days  
It's only the comforter  
It came from above, because of His love  
Yes, it's the comforter

These times that you hear, there's no need to fear  
It's only the comforter  
It's the spirit of the Lord  
We were all one of the born  
Receive the comforter

In this present day and time  
So much on my mind  
It's easy to forget

---
