

Without You

Shekinah Glory Ministry

Without You (life would be full of sorry and pain)
Without You (there would be no sunshine after the rain)
Without You (my life would simply go down)
Without You (there would be no cross or even no crown)

Can't live, (move) can't move, (function) can't function (without you in my life) without you in my life
Can't live, (move) can't move, (function) can't function (without you in my life) without you in my life

Without You (there would be no grace and no mercy)
Without You (Lord, my life would be simply empty)
Without You (there would be no hope for a brand new day)
Without You (couldn't be able to find the words to say)

Can't live, (move) can't move, (function) can't function (without you in my life) without you in my life
Can't live, (move) can't move, (function) can't function (without you in my life) without you in my life
Can't live, (move) can't move, (function) can't function (without you in my life) without you in my life
Can't live, (move) can't move, (function) can't function (without you in my life) without you in my life

Oh Lord, You were the reason why I can reach up and touch the sky
You are my everything. You are my everything.
Lord, You pick me up, whenever I'm down. I'm so happy that you're around.
You are my everything. You are my everything.
Lord, please don't let me go. Oh Lord, I love you so.
You are my everything. You are my everything.
I can't live, I can't move, I can't function without your love.
You are my everything.

(I can't live) Can't live, (I can't move, no) can't move, (I can't function) can't function (without you in my life).
Can't live, (I can't move, no) can't move, (I can't function) can't function (without you in my life).
(I can't live) Can't live, (I can't move, no) can't move, (I can't function) can't function (without you in my life).
Can't live, (I can't move, no) can't move, (I can't function, no) can't function (without you in my life).
in my life.

(Oh-oh-oh)

Oh-oh-oh, oh-oh. Oh-oh-oh, oh-oh. Oh-oh-oh, oh-oh. Oh-oh-oh, oh-oh. [Repeat many times as directed]
