

My Only One

Plain White T's

Oh, please don't go, I need you
I'll please you, not mislead you
If you would be my only one Together we move slowly
I'll never leave you lonely
If you would be my only one If you believe
We were meant to be
Why did you leave me alone What happened to forever
I'll try to make things better
If you would be my only one Now six days since we've spoken
I'll fix you when you're broken
If you would be my only one If you believe
We were meant to be
Why did you leave me alone If you believe
We were meant to be
Why did you leave me alone If you love me too
Can I call you
My only one If you say no
I won't let go
My only one If you believe
We were meant to be
Why did you leave me alone If you believe
We were meant to be
Why did you leave me alone
