

Goodbye Lament

[Tony Iommi](#)

Say a prayer for me in my memory
Have a taste another one is through
Damn, this place in me, damn, this destiny
I will be the one who cries when you goHello misery, your the best of me
Hey, someone got the best of you
Come and sleep with me for infinity
We'll spend some time and find the rest of youBreak down, break down willing in your head
Rain down, rain down, innocence is deadGoodbye lament, goodbye lament
Goodbye faith, I swear, I won't believePray for me, faded memory
Give me and I'll fade into you
Come and dance with me
I will always be asleep in behind
The eyes that I bleed throughBreak down, break down willing in your head
Rain down, rain down, innocence is deadGoodbye lament, goodbye lament
Goodbye faith, I swear, I won't believeGoodbye lament, goodbye lament
Goodbye faith, I swear, I won't believeBreak down, break down, willing in your head
Rain down, rain down, innocence is deadBreak down, break down, willing in your head
Rain down, rain down, innocence is deadGoodbye lament, goodbye lament
Goodbye faith, I swear, I won't believe
