

# It Turns To Rust

## Kataklysm

Fear with a touch of sin  
Death to resurrect  
Pain to inflict the world  
Just let it grow To let your blood flow  
To feed your dying soul  
I'll bring you to this war  
I'll bring you to your door All compassion fails  
Your heart is just as stale  
Everything you touch turns to rust All compassion fails  
Your heart is just as stale  
Everything you touch turns to rust It turns to rust  
(It turns to rust) Hate in the darkest place  
Faith it dies with me  
Wrath to save your soul  
Just let it grow To let your blood flow  
To feed your dying soul  
I'll bring you to this war  
I'll bring you to your door All compassion fails  
Your heart is just as stale  
Everything you touch turns to rust All compassion fails  
Your heart is just as stale  
Everything you touch turns to rust It turns to rust  
(It turns to rust)  
Yeah, it just turns to rust I don't care about your pain and your grief  
It's all about your greed  
For every single thing  
(Thing)  
For every single moment  
(Moment)  
You took from me  
(You took from me)
