

Running Wild

Moon Taxi

Stepping out, underneath the golden sky
Find a way, through the people passing by

Ohhh I'm asking why

Ohhh can't we live tonight

We're running out of time

And just for now

We could come undone, with the founding sun

Ohhhhh-woahhhhh running wild

Ohhhhh-woahhhhh running wild

So drink it in, let it race around your mind

We come alive, as it's dripping from our eyes

Oh this city's wild

Oh it's burning through the night

Until we say goodbye

So just for now

We could come undone, with the rising sun

Ohhhhh-woahhhhh running wild

Ohhhhh-woahhhhh running wild

Woah

Feel it all around

Stars are coming down

Running through the town, stars are coming down

Feel it all around

Stars are coming down

Running through the town, stars are coming down

Falling one by one

So we stop to run

Ohhhhh-woahhhhh running wild

Ohhhhh-woahhhhh running wild

Ohhhhh-woahhhhh running wild

Ohhhhh-woahhhhh running wild x2
