

# Moonset

## Franco

The moonset and the lights go down  
feel so good to be alive  
the moonset and the few are here  
we keep on burning the fire

but it was invisible  
can I here your onset well.

the moonset and the lights drop in  
Illumination desire  
the moonset and the few could see  
the holy and the divine

but it was invisible  
can I here your onset well.

Why would leave tonight  
Try to find your onset, like in the afternoon delight  
Why would leave tonight  
will find your onset.

Oh well? ill be fine (love)  
Ill be fine, with your love  
We'll be fine, with jah love  
We'll be fine here.

Will the next generation stand up tonight?  
Will the next generation stand up to fight?  
We the next generation will make it alright  
Will the next generation unite?

This is our time, you're making it final way.  
This is our time, being through and sincere  
This is our time, finally here your onset to work.

Why would leave tonight  
Try to find your onset, like in the afternoon delight  
Why would me tonight  
will find your onset.

Oh well? ill be fine (love)  
Ill be fine, with your love  
We?ll be fine, with jah love  
We?ll be fine here.

In the name of the love, jah write this.  
In the name of the love, love will divided this.  
In the name of the love, peace and amity.  
In the name of the love, love I, and we.
