Never Going Home

Semi Precious Weapons

Take a look, take a look before we go
Because once we leave
Once we leave we're never going home
Yeah there's so much road and so little time
Promise to stay awake while you drive
Theres so much road, so little time
So baby drive'Cause we're never going home tonight
We're never going home tonight
We're never going home tonight
No we're never going home tonightAll I need, all I need is the music loud
You and me, you and me with the windows down
Yeah I hope you are just as serious
As you were when we thought of this
'Cause theres so much road and so little time
So baby drive'Cause we're never going home tonight
We're never going home tonight
We're never going home tonight
No we're never going home tonightTake my hand lover, but just one
'Cause you're driving us to the future
Take my hand lover, but just one
'Cause you're driving us to the future'Cause we're never going home tonight
We're never going home tonight
We're never going home tonight
No we're never going home tonight
