

# Never Going Home

## Semi Precious Weapons

Take a look, take a look before we go  
Because once we leave  
Once we leave we're never going home  
Yeah there's so much road and so little time  
Promise to stay awake while you drive  
Theres so much road, so little time  
So baby drive'Cause we're never going home tonight  
We're never going home tonight  
We're never going home tonight  
No we're never going home tonight All I need, all I need is the music loud  
You and me, you and me with the windows down  
Yeah I hope you are just as serious  
As you were when we thought of this  
'Cause theres so much road and so little time  
So baby drive'Cause we're never going home tonight  
We're never going home tonight  
We're never going home tonight  
No we're never going home tonight Take my hand lover, but just one  
'Cause you're driving us to the future  
Take my hand lover, but just one  
'Cause you're driving us to the future'Cause we're never going home tonight  
We're never going home tonight  
We're never going home tonight  
No we're never going home tonight
