Wrapped In Moonlight

Sarah Darling

Say those words again
Whisper in my ear
Softly pull me in
Cause all I wanna hear

How you want me so
More than anything
This perfect night
Heavens shining down

Forever wrapped in moonlight
Your Arms around me so tight
Till everything just fades away
Shining on each other
Like Diamonds on the water
I always want to feel this way
Every night of our lives
Wrapped in moonlight

Then you lay me down
Softly In the sand
And you move me like the ocean rolling in
Like a paperback romantic fantasy
About two people
Lost in love

Forever wrapped in moonlight
Your Arms around me so tight
Till everything just fades away
Shining on each other
Like Diamonds on the water
I always want to feel this way
Every night of our lives
Wrapped in moonlight
