

# Shout (Street Respect)

Sean Paul

Hear you shout, dutty them, a tell them once again yow  
Sly them, a tell them once again, hey yow  
Sean Paul and we a tell them once again  
Taxi haffi set the new trend, yow Kick up the bass up and make I bun up the place up  
Make I pick up the pace up and make them wine up them waist up  
We them want fi erase up but we style them embrace up  
But them cant stop the music so great up weh we create up Me say year onto year me haffi a tell them straight up  
Man a no punk, man a no fool, definite we sent no bait up  
Unu fi listen to the lyrics pon de riddim weh we state up  
If you love how we sound, let me see you hand then wave up Me want fi hear you shout, shout, shout  
From you love the lyrics coming out me mouth, mouth, mouth  
No doubt we got the street respect  
And you know, say that it never counterfeit yet, vibes weh you get Me want fi hear you shout, shout, shout  
From you love the lyrics coming out me mouth, mouth, mouth  
No doubt we got the street respect  
And you know, say that it never counterfeit yet, vibes weh you get We block it and rock it and make them just  
cant forgot it  
When we chat it, we lock it and now we see them a follow back it  
Then want fi copycat it but we a top, a top it  
Them no want fi see we clock it neither fi see we chop it Them use it and fuse that a de history of we music  
When we fan them a choose it, should never let them abuse it  
Them a try fi confuse it like them want fi lose it  
But all weh them a gwaan, we still deh ya boost it Just turn up the treble and the bass, make it play  
Party non-stop from a night till day  
And no matter weh the hypocrite and critic them a say  
Reggae music deh ya fi stay, weh me go so then Me want fi hear you shout, shout, shout  
From you love the lyrics coming out me mouth, mouth, mouth  
No doubt we got the street respect  
And you know say that it never counterfeit yet, vibes weh you get Me want fi hear you shout, shout, shout
