Bizzy Bone

Advisory - the following lyrics contain explicit language:

Niggas stay hashed out, hashed out
Mash on these niggas 'til we passed out, passed out
Laugh at these niggas 'cause we assed out, lets bow
These niggas smacked me in the fast lane Last thangs I need is enemies, is that fame?
Well that shit is lame oh no
Original bang bang gotta maintain the main thang baby
Lately always runnin' from ladies 'Cause no one's thinkin' 'bout my babies
Just maybe I'll be lonely left, 'cause y'all gone crazy
Got everybody out here wonderin' if I'm broke, I don't play that
And we pray, and we pray Let everybody say that, and you can do what the fuck you wanna do
Not like way back, hey
Got mail from the payback, it's evil all around
Now, here we are, praise God, don't hold us down Praise God, don't hold us down
Praise God, don't hold us down
If you got to get your clown on wit'cha
Top down when ya hear the cop sound I gotta go punch 'em, calm down
And when you're in the club drunk and you think you see a punk
He just might have a pump in the trunk, and ready to fuck you up
(Up)
You niggas can't get near me by not carryin' the load
(Load) As soon as you get babies, she can't wait to say, hello
These niggas think they Panthers, keep movin', go get some Pampers
Any questions get on your knees and get the answer
Evidently everyday Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changed
Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
Ooh, ain't shit changed Who the only nigga you know?
Who the only nigga you know, that's thuggish ruggish?
I still do the ditches with my song still fuckin' with the lights on
Sit up and real enough to look at the kids

And tell 'em momma ain't with us, us, us, us It won't be easy believe this
 We were birth inside the fetus
 Ghetto mamas still caught up in ghetto drama think of Columbine
 Pop pop, what if it happened to mine? Will I get paid and keep quiet, or say, fuck that and start a riot?
 Niggas lyin' to me demons keep flyin' to me
 Chuckin' many in the street pimpin' me fakin' let's make history
 My people keep the flame in me help me make this money on my family I can feel it even if I died burn me
 They can't kill it if they wanted to my spirits keep on hauntin' you
 Can't wait 'cause I'm the realest
 I come with the wickedness and pillage the village Stick with runaways
 Fuck these house niggas and grab your crotch nigga
 You slouch rat mouse, niggas bounce
 Niggas bounce, niggas bounce Who the only nigga you know?
 Who the only nigga you know, that's thuggish ruggish?
 Ooh, ain't shit changed
 Who the only nigga you know?
 Who the only nigga you know, that's thuggish ruggish?
 Ooh, ain't shit changed Who the only nigga you know?
 Who the only nigga you know, that's thuggish ruggish?
 I still do the ditches with my song still fuckin' with the lights on
 Sit up and real enough to look at the kids
 And tell 'em momma ain't with us, us, us, us And my daddy, daddy, daddy's on the chain gang
 Tell 'em 'bout the gun line boss the same thing
 And I hope they took a good picture somebody's out to get ya
 Lay me down shit's gonna happen right up wit cha I've seen murder on the news burnin' smellin' up the room
 And the bang won't let me sleep
 I put in me latch, latched with a broom
 Strategize like, ahh, and it will materialize Fantasize like, ahh, and never materialize
 What am I the dead weight? It'll be okay
 Im hopin' that choo choo ride out the real chance, real here
 So all my people with AIDS we can sit down and play some spades
 I ain't afraid to to die smoked with Eazy everyday Who the only nigga you know?
 Who the only nigga you know, that's thuggish ruggish?
 Ooh, ain't shit changed
 Who the only nigga you know?
 Who the only nigga you know, that's thuggish ruggish?
 Ooh, ain't shit changed Who the only nigga you know?
 Who the only nigga you know, that's thuggish ruggish?
 I still do the ditches with my song still fuckin' with the lights on
 Sit up and real enough to look at the kids
 And tell 'em momma ain't with us, us, us, us
