Hawaii

The Hep Stars

i wanna go to hawaii
build my castle out of sand
and i wont need anybody
telling me that i cant
and you cant see that you see me
if you don't know who i am
you cant see that you need me,
and neither one of us can be found
if neither one of us can be found

i wanna soak up the water
i dream about you every night
and in my mind will be an order
take it away in just one flight
and you cant see that you see me
if you don't know who i am
you cant see that you need me,
and neither one of us can be found
if neither one of us can be found
if neither one of us can be found
