

# Wanna Be Manor

## The Vandals

Advisory - the following lyrics contain explicit language:

You can tell I'm no great planner - I ended up at the wanna be manor - wanna be manor, what a place to be -  
wanna be manor, it's not for me - I looked in the door, opened the door - peed on the floor, spotted a whore -  
drugs and filth are all around - no clean dishes can be found - if you thought that your nightmares were scary -  
wait till you meet the hoe called jerri - no one dragged a dead fish in the room - it's spreading legs and her  
female perfume - I walked upstairs, I can't explain - but I got involved in a three man train - was it fun? Yeah, I  
guess - but I got crabs like all the rest - Dave's a cool guy but he's a really a slob - lives on unemployment, and  
he can't get a job - go ahead and take a drink, there's nothing to fear - just make sure you sniff that beer! -  
Passing out is no excuse - you'll be subject to abuse - some will let you hang there - It's just the pigs on their  
nightly visit - After busting one person each - the pigs said to move out of huntington beach - now I'll have to  
find a new town - or find another wanna be manor - wanna be manor - You can tell I'm no great planner - I  
ended up at the wanna be manor - wanna be manor, what a place to be - wanna be manor, it's not for me -  
wanna be manor - wanna be manor
