

Take It While It's Hot

Sweet Sensation

It's time to jam Take it hot So won't you come inside? Take it while it's hot
Take it while it's hot
Give it all you've got
Take it while it's hot I've always dreamed this was the way that it could be
Just like a fantasy, you're here along with me
So now it seems we've slipped into reality
And it's plain to see this is our destiny Feelings I try to hold, just seem to take control
I lie awake, my body shakes with just one thought of you
The door is open wide, so won't you come inside
And do those special things that lovers do Take it while it's hot, I think the time is right
Take it while it's hot, I want your love tonight
Give it all you've got, don't let this feeling end
Take it while it's hot, 'cause it may not come again Come, come, come inside, come again
Come, come, come, come inside, can't wait Sometimes I'm shy but now I think that you should know
The deeper that we go, the more my feelings show
Time passes by just like good things come and go
So light the candles, babe, and I'll make a wish and blow I love the way you groove, I'm gonna make this move
It's time to live, I wanna give you what you're waiting for
The lights are pink and low, I think we're good to go
We're wasting time and I can't wait no more Take it while it's hot, I think the time is right
Take it while it's hot, I want your love tonight
Give it all you've got, don't let this feeling end
Take it while it's hot, 'cause it may not come again Come inside, come, come, come inside, come again
Come inside, come, come, come, can't wait Take it while it's hot, I think the time is right
Take it while it's hot, 'cause I want your love tonight
Give it all you've got, don't let this feeling end
Take it while it's hot, 'cause it may not come again Take it while it's hot, I think the time is right
Take it while it's hot 'cause I want your love tonight
Give it all you've got, don't let this feeling end
Take it while it's hot, 'cause it may not come again Take it while it's hot
