

The Black Plot

High On Fire

Pick a side cause the dogs come a begging
Best close your thighs cause the Gods come a raping
Best hide your mind cause there's aliens mating
Truth is their lies less believed is their saying
Luminate phosphorus cells
Lust of an ethereal spell
Warlords of Hades are bound
Frequencies changing dark crowns
Reptilian eyes trick the arcane from under
Man's ancient pact darkness comes with the thunder
Poison gifts given death and asunder
We blame ourselves as the gods take their plunder
Luminate phosphorus cells
Lust of an ethereal spell
Warlords of Hades are bound
Frequencies changing dark crowns
Dark rites, seers given
Blood oaths, space time written
Dark rites, seers given
Can't stop what the Black Plot Design has done
Pick a side cause hell hounds are begging
Best close your thighs cause the Gods come a raping
Best hide your mind cause there's aliens mating
Truth is their lies less believed is their saying
Luminate phosphorus cells
Lust of an ethereal spell
Warlords of Hades are bound
Frequencies changing dark crowns
Dark rites, seers given
Blood oaths, space time written
Dark rites, seers given
Can't stop what the Black Plot Design has done
