

# When Will I Ever Learn

[Don Williams](#)

You call me up at five to five, and you ask me if I'll drop by  
That you need me, tonight you're all alone  
Like the fool I am and the fool I'll be, I drove there anxiously  
But when I got there, you were not alone[Chorus:]  
When will I ever learn that you'll never care about me?  
You only build me up to bring me down again  
When will I ever learn that you'll use me and abuse me?  
Oh, tell me; when will I ever learn? When will I learn, when will I get wise; you never apologize  
I swear that this time I'm through with you  
Like the fool I am and the fool I'll be, the next time you need me  
Once again I'll give in to you[Chorus]
