## **Take What You Need**

## **Steppenwolf**

Take my hand sweet darlin'

Wipe that frown off your face

I don't love anyone but you know

No one can take your place but

Sometimes I worry darlin'

The way you seem to hoard my loveJust take what you need

Don't empty out the store

Just take what you need

'Cause I ain't got much moreTook a stroll in the country

Some peace of mind to find

Wire fences everywhere

No place to rest my mind

Seems like a shame to me

The way some people hoard their landJust take what you need

Don't empty out the store

Just take what you need

'Cause I ain't got muchTook a look in the paper

While tryin' to eat a bite

You know I read the evening news

And lost my appetite

Some have the nerve to ask

For more respect from you and meJust take what you need

Don't empty out the store

Just take what you need

'Cause I ain't got muchTake my hand sweet darlin'

Wipe that frown off your face

I don't love anyone but you know

No one can take your place but

Sometimes I worry darlin'

The way you seem to hoard my loveJust take what you need

Don't empty out the store

Just take what you need

'Cause I ain't got much
