[Lisa Hannigan](#)

Same as ever it begins  
Heard a knock and let it in  
This is just the medicine  
To swallow I'll be on my own awhile  
Smiling like a crocodile  
You can see for miles and miles  
It follows Broken as it is, this is love I don't remember where I was  
Heavy is as heavy does  
Weighed me down because  
It's hollow  
Broken as it is, this is love
